

Configure Open ID for Shufflrr using Okta

1. Register as new user on <https://developer.okta.com/signup/> Or Login to your Okta account.

The image shows the Okta registration page. At the top left is the Okta logo. The main heading is "Start building on Okta." followed by "No credit card required." Below this are five input fields: "Email", "First Name", "Last Name", "Company", and "Country" (a dropdown menu). At the bottom right is a pink "GET STARTED" button.

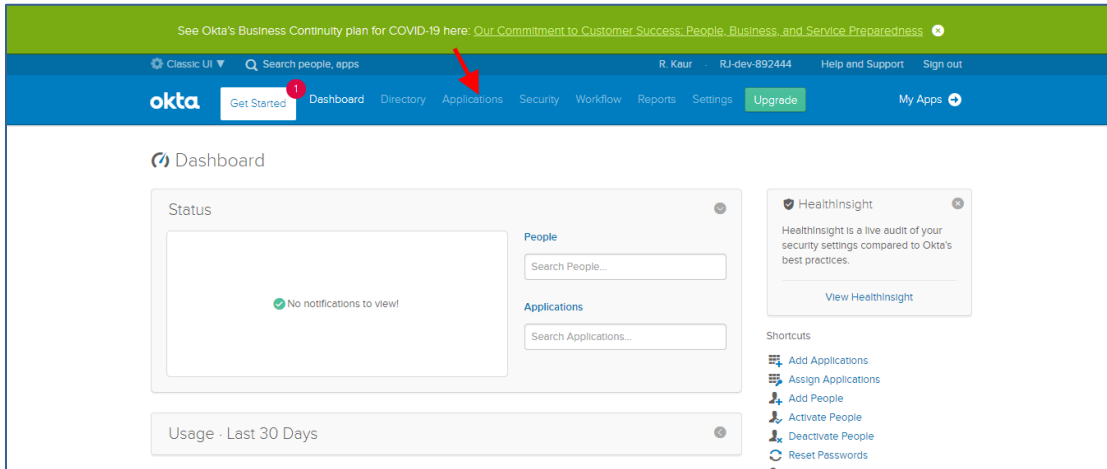

2. Being a new user, fill the introduction form and hit continue.

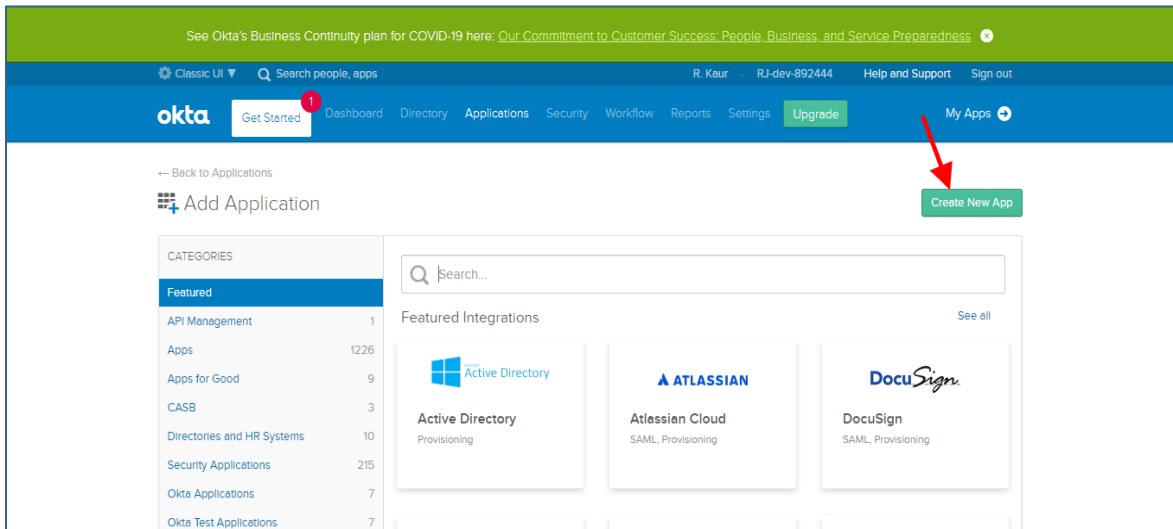

The image shows the "Tell Us About Yourself" form. It has a dropdown menu for "What's your role?" with "Choose one" selected. Below that is a section for "What's the first thing you want to build?" with the subtext "You can change this or do more later." There are three radio button options: "Custom app" (with subtext "Build an app using Okta for sign in and user management."), "Partner integration" (with subtext "Connect and distribute your apps to our mutual customers. Common integrations include single sign-on and provisioning."), and "Other". At the bottom are two buttons: "DO THIS LATER" (highlighted with a red box) and "CONTINUE".

3. Verify the process from your email address and set password.
4. Now check the URL, username on email address and login with the password set.

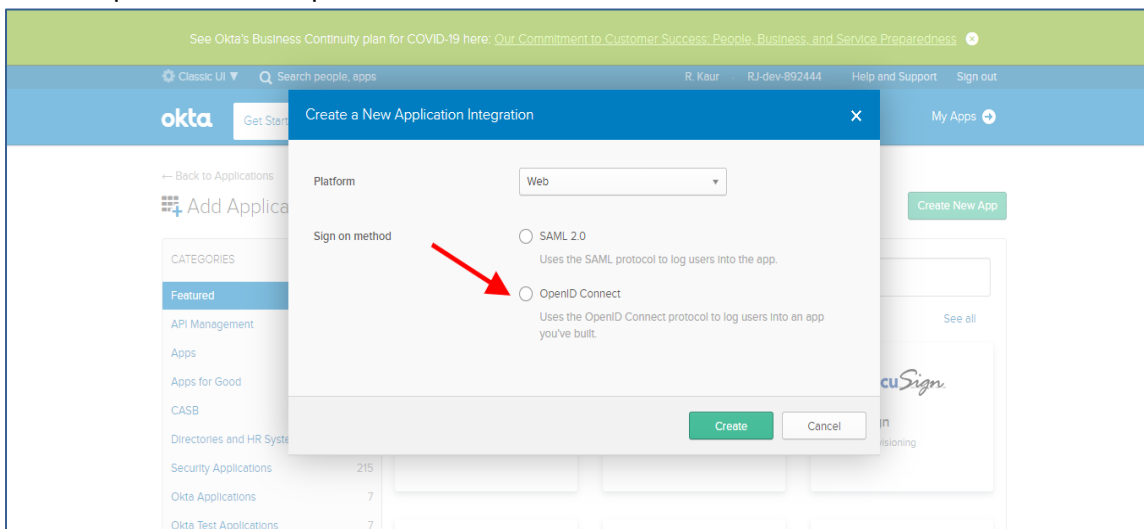

5. Go to Applications and hit Add Application.

6. Hit Create New App.

7. Choose Open ID Connect option.

8. Set App Name, App Logo(Optional) and Login redirect URIs. On Shufflrr, this is called the Callback URL and you can get it from the Admin => Settings page. It appears after you click on the OpenID Connect Authentication type checkbox is selected) as shown below and then hit Save.

Callback URL	https://MarkTest.shufflrr.com/login/openidconnectlogin

Create OpenID Connect App Integration

GENERAL SETTINGS

Application name: MarkTest Shufflrr OpenID

Application logo (Optional):

CONFIGURE OPENID CONNECT

Login redirect URIs: <https://MarkTest.shufflrr.com/login/openidconnectlogin>

+ Add URI

Logout redirect URIs (Optional): + Add URI

Save Cancel

9. Grab your newly generated **Client ID** and **Client Secret** from OKTA and paste values into Shufflrr. For the Discovery URL, the first part is your Okta URI , then a backslash and add **.well-known/openid-configuration** and hit the URL in a browser tab. Should look like <https://dev-xxxx-admin.oktapreview.com/.well-known/openid-configuration> and then hit the blue **Discover** button.
